

COVID-19 Screening

For staff/visitors/adult learners at child care & school settings

Updated Oct. 5, 2021

Name: _____ Date: _____ Time: _____

1. Do you have any of the following new or worsening symptoms?

Fever and/or chills

Yes No

Cough

Yes No

Trouble breathing

Yes No

Decrease or loss of taste or smell

Yes No

Tired, sore muscles or joints

Yes No

- If you have a health condition diagnosed by a health care provider that gives you the symptom, select "No". If the symptom is new, different or getting worse, select "Yes".
- Anyone who is sick or has any symptoms of illness, including those not listed above, should stay home and seek assessment from their health care provider if needed.

If "YES" to any symptom:

Stay home & self-isolate

Get tested with a PCR test

Or

Contact a health care provider

2. Does anyone in your household have one or more COVID-19 symptoms and/or are waiting for test results after experiencing symptoms? Yes No

- If you are fully vaccinated* or have tested positive for COVID-19 in the last 90 days and been cleared, select "No".

3. Have you been notified as a close contact of someone with COVID-19 or been told to stay home and self-isolate? Yes No

- If you are fully vaccinated* or have tested positive for COVID-19 in the last 90 days and been cleared or public health has told you that you do not have to self-isolate, select "No".

4. In the last 10 days, have you tested positive on a rapid antigen test or a home-based self-testing kit? Yes No

- If you have since tested negative on a lab-based PCR test, select "No".

5. In the last 14 days have you travelled outside of Canada AND been advised to quarantine per the [federal quarantine requirements](#)? Yes No

If "YES" to questions 2,3,4 or 5:

Stay home & self-isolate

Follow public health advice

* Fully vaccinated means 14 days or more after getting a second dose of a two dose COVID-19 series or as defined by the Ontario Ministry of Health

I HAVE ONE OR MORE SYMPTOMS OF COVID-19

You should stay home, self-isolate & get tested with a PCR (Polymerase Chain Reaction) test.

Notify the child care/school that you have symptoms.

WHAT WAS THE RESULT OF THE COVID-19 PCR TEST?

POSITIVE

- Let the child care/school know that you tested positive for COVID-19.
- You must stay home & self-isolate for 10 days from the day symptoms started. You can return on day 11, even if someone else at home develops symptoms.
- Household members & close contacts who are not fully vaccinated with a COVID-19 vaccine* must self-isolate for at least 10 days and should get tested.
- Toronto Public Health will contact you to do an investigation & will provide further instructions.
- If you tested positive with a rapid antigen test, you must get a PCR test to confirm the result.

NEGATIVE

Are you a close contact of someone who tested positive for COVID-19 in the last 10 days?

- No** You may return 24 hours after your symptoms have started improving (48 hours for nausea, vomiting or diarrhea).
- Yes** **If you are not fully vaccinated***: you need to self-isolate for 10 days from last exposure to the person who was positive.
- Yes** **If you are fully vaccinated***: you may return 24 hours after your symptoms have started improving (48 hours for nausea, vomiting or diarrhea).
- Yes** **If you have tested positive for COVID-19 in the last 90 days and were cleared**: you may return 24 hours after your symptoms have started improving (48 hours for nausea, vomiting or diarrhea).
- Yes** **If you only received an exposure notification through the COVID Alert app**: you can return 24 hours after your symptoms have started improving (48 hours if nausea, vomiting or diarrhea).
- Others in your home who attend a child care/school setting can return right away as long as there are no other household members with symptoms.

NOT TESTED

- You must stay home & self-isolate for 10 days from the day symptoms started. On day 11, you can return to the child care/school setting if your symptoms are improving.
- Anyone in your household who is not fully vaccinated* or has not tested positive for COVID-19 in the last 90 days and was cleared, must self-isolate until you get a negative COVID-19 test or 10 days have passed.
- If a health care provider has diagnosed a condition that isn't related to COVID-19, you can return 24 hours after your symptoms improve (48 hours for nausea, vomiting or diarrhea). Household members do not need to stay home.
- If you tested negative with a rapid antigen test, you must get a negative result on a PCR test to be cleared.

I have travelled outside of Canada in the last 14 days, what should I do?

- You must follow federal guidelines for quarantine and testing after returning from international travel.
- If you are exempted from federal quarantine as per [Group Exemptions, Quarantine Requirements under the Quarantine Act](#), you do not need to isolate.
- [Follow federal requirements for travellers.](#)

* Fully vaccinated means 14 days or more after getting a second dose of a two dose COVID-19 series or as defined by the Ontario Ministry of Health
